Luxottica Group e-Procurement Portal
Introduction to the Qualification Process

Agenda

Luxottica Group eProcurement Portal

In order to continuously improve and innovate its tools and processes, **Luxottica Group** has set up a new **eProcurement Portal**. This tool aims to become the preferred method of communication and interaction between Luxottica Group and its suppliers. It is of utmost importance that suppliers develop and foster the collaboration with Luxottica Group, by completing the qualification process in the new online Vendor Portal.

Through the Portal it will be also possible to ease sourcing activities and to increase business opportunities, by allowing qualified vendors to become actively part of an efficient, fair and well-structured purchase process.

Portal Advantages

˝ **Company presentation**
˝ **Becoming a Supplier of Luxottica**
˝ **Efficiency in sharing information with Luxottica**
˝ **Transparancy and traceability of information**
˝ **Data Storage**

LUXOTTICA

The objective of the Portal

The Portal is used by Luxottica with the aim to:

″ Assign a Pre-Qualification to suppliers through a preventive analysis of information and documentation provided

″ Qualify suppliers on the basis of their classification

″ Choose suppliers to be invited to negotiations, selecting those which satisfy the main requested characteristics in terms of technical quality and economical stability, certifications and references.

Why classification and qualification are important

″ **To better render corporate characteristics (turnover, references, etc)**
″ **To be involved in negotiations referring to specific product categories**

LUXOTTICA
